My name is Quach Khanh Duc, you can learn to say my name by calling me Duck, without the “k”.

My university is here

I'm from this part of Vietnam
I was born and raised here

This is my university:

University of Science and Technology of Hanoi - Vietnam France University

I will be a 3rd-year undergrad after this summer

My school

When we host the French President

I am currently having a 2-month Internship with the NEUTRINO group at IFIRSE

The morning view

Where we go swimming at the weekend

My *Research Interest*

01 High Energy Physics

02 General Relativity

What for future ???

I think choosing a career for life is kind of like marrying the love of your life - it's a big decision that takes some serious thought. It's not like a first crush in high school that fades away. Over the next few years, I want to learn as much as I can about the two options I'm considering so I can find what really feels right for me.

MY HOBBIES

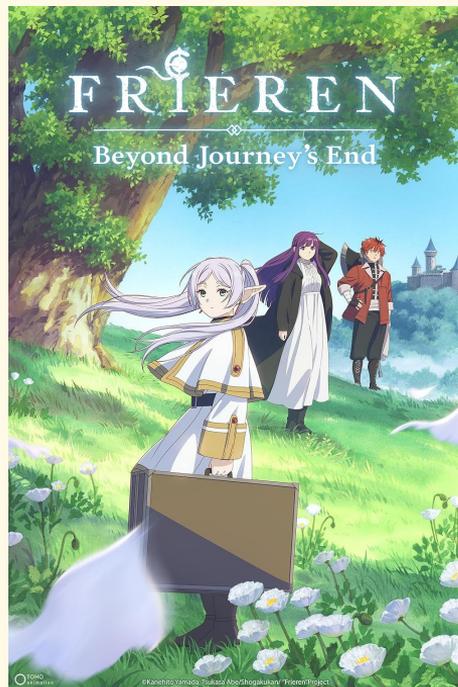

- Wandering around at nights (to enjoy the view and the atmosphere)
- Running, Jumping, Swimming, Climbing,...
→ Exercising stuffs
- Learning different types of Martial Arts.

ANOTHER TYPE OF

HOBBY

- Watch nice movies...

Thanks for listening
