

Wi Han Ng

PhD student,
The University of Melbourne

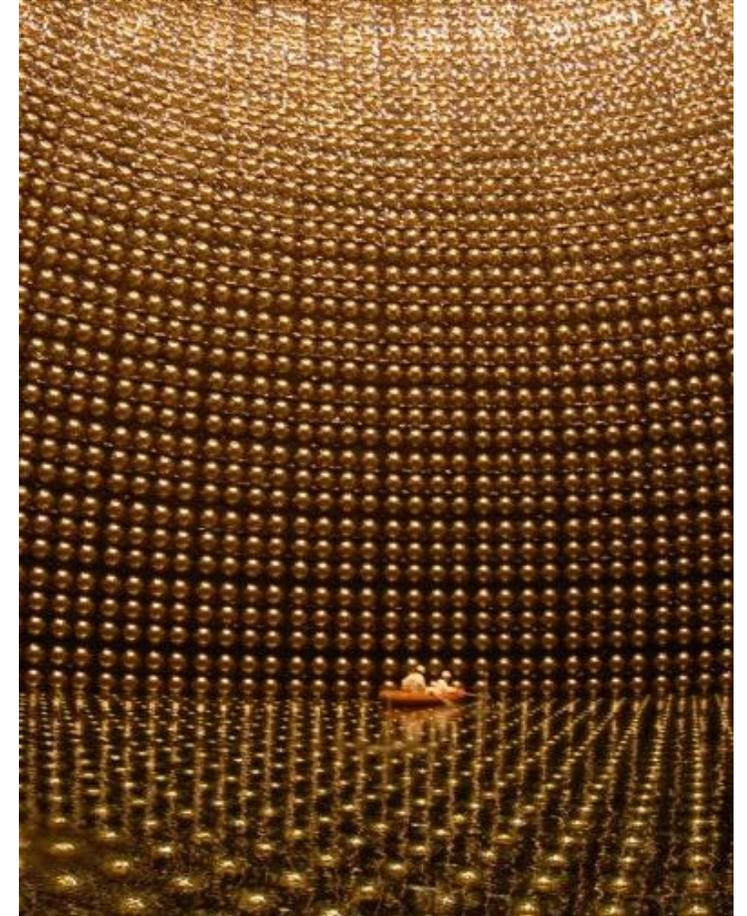

Who I am

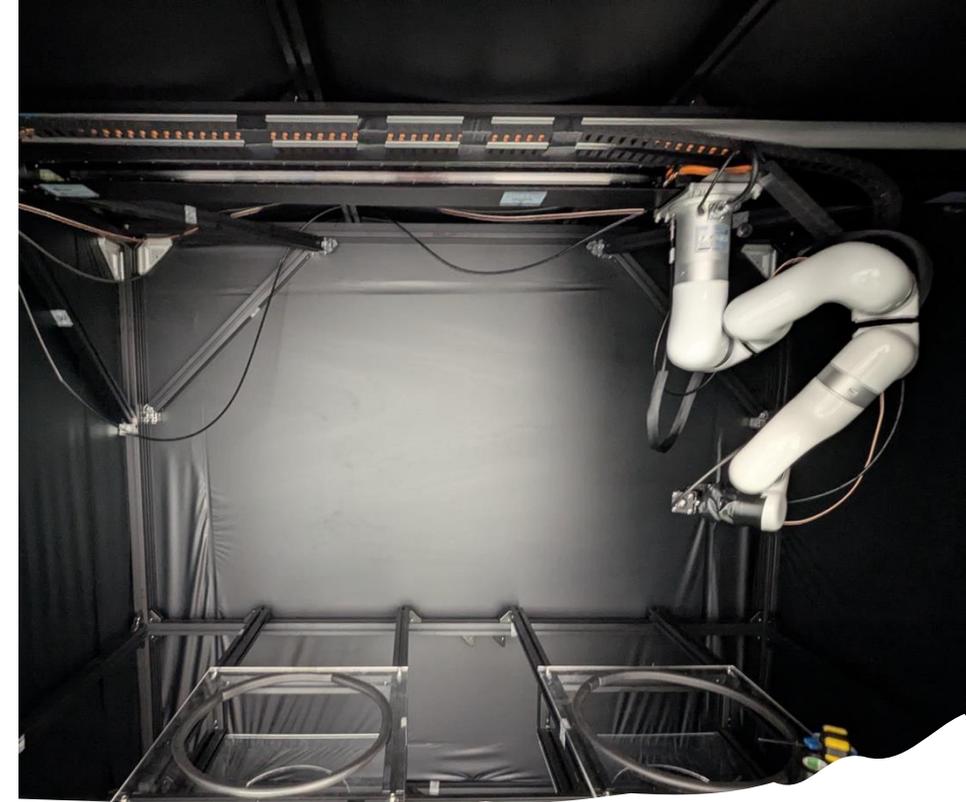

Born and raised in Selangor,
Malaysia

Spent the last 7 years
studying physics at
Melbourne Uni

Been working with the
HyperK experiment for the
past 2 years

Research

Pre-calibration of HyperK's 50cm PMTs using a 6-axis robotic arm

Research Interest

EDUCATIONAL OUTREACH –

To get kids more involved with physics and teaching them about physics they may not get to learn in school yet (and hopefully making it enjoyable)

Hobbies – Photography & Whiskey
